Press Release

Beat Lights

The water carrying vessels that are still carried on heads all over India provided the first inspiration for this series of pendant lights. The Beat Light is made from hand beaten brass; using rapidly vanishing skills from Indian master craftsmen, the beaten brass ages creating a patina black external surface in contrast to the warm golden interior. Available in four different sizes, Wide, Fat, Tall and Stout the Beat Light can be used in many different configurations, as a group using all three designs or using a stand alone design.

The Beat collection also includes the Beat Stout pendant and Beat Vessels; Slim, Drop and Top made from smooth unpolished brass.
