

“Baguette is a large, rectangular table in two parts. An opaque top sits on a slender yet highly resistant aluminium base. We paid particular attention to the frame of this table, seeking to use as little aluminium as possible in our design. The visual effect is that the look of the table is of a heavy top supported only by four spindly legs”.

Designers

Ronan & Erwan Bouroullec

Ronan and Erwan Bouroullec have been working together for about ten years now. Their collaboration is a permanent dialogue, nourished by their distinct personalities and a shared notion of diligence, with the intention to achieve greater balance and refinement. The Bouroullecs have been working with Magis since 2004, designing two complete furniture collections as well as other projects. These days, Ronan and Erwan Bouroullec design for numerous manufacturers and they also continue to carry out their own experimental activity which is essential to the development of their work at Galerie Kreo, Paris, where four exhibitions of their designs

were held between 2001 and 2012. They also embark on occasional architectural projects.
